26. Long Distance from Permanent Residence: Our permanent home town is located at a substantial distance from the institution's campus. Given the vast distance, traveling physically to the campus every few months solely for installment processing, physical accounts verification, or fee clearing is highly impractical.

27. Travel Constraints and High Logistics: Long-distance travel involves significant logistical planning, time investment, and recurring financial expenditure. Undertaking frequent, exhausting journeys back and forth throughout the academic term places an unnecessary administrative and physical burden on our family.

28. Unpredictable Ticket Availability: Public transportation routes connecting our home region to the institution (trains or flights) experience heavy seasonal demand, leading to severe ticket unavailability and long waiting lists. To prevent any unforeseen delays in fee submission caused by a lack of confirmed travel arrangements, a one-time full payment is the safest option.

29. Uninterrupted Academic Focus and Peace of Mind: Clearing the annual accommodation and mess dues at the absolute beginning ensures complete peace of mind for both the parents and the student. It safeguards the student from any intermediate administrative notices, payment follow-ups, or logistical distractions, allowing them to remain solely focused on their academic performance.

30. Self-Consent on Advance Payment & Policies: I explicitly authorize the hostel administration to accept the full session fee in advance. I fully acknowledge that once this formal advance payment is submitted, I will not request a mid-term refund or commercial adjustment if my ward voluntarily vacates the premises early, except as provided under the standard medical or institution guidelines.

31. Comprehensive Campus Physical Visit: I acknowledge that I have personally visited the entire institutional premises, including academic blocks, common corridors, playgrounds, entry/exit gates, and the residential/hostel environments, to satisfy myself with the overall security standard.

32. Assessment of Multi-Layered Safety Measures: During my visit, I specifically observed, noticed, and reviewed them structural safety parameters, deployed guard points, and administrative checks established by the school to protect the students from any untoward external or internal factors.

33. Satisfaction with Extensive CCTV Surveillance: I have noted that the institution has installed high-definition CCTV surveillance cameras at every possible strategically crucial and permissible vantage point across the campus. This includes public pathways, activity centers, entry points, and administrative sections to ensure continuous monitoring.

34. Absolute Acceptance & No Disciplinary Objections: I unequivocally state that our family has absolutely no issues, reservations, or privacy objections concerning the location or operational coverage of these CCTV cameras. I understand that this pervasive surveillance is operated strictly for safety auditing, discipline enforcement, and emergency tracking.

35. Compliance and Administrative Support: I appreciate that digital data archiving and visual auditing enhance the security of my ward. I assure the school that we fully support this protective structure and will not raise any administrative claims challenging the school's surveillance strategy.

43. Transit Risk Assumption & Indemnity: I understand that long-distance travel during peak holiday seasons involves inherent risks, transit delays, and external logistics. I voluntarily assume all operational risks and explicitly indemnify the school against any claims, losses, incidents, or damages that may occur during my ward's journey to or from the campus.

49. Group Liability in Shared Spaces: If property is damaged in a shared dormitory, room, or common area, and the specific individual responsible cannot be identified, I understand and agree that the repair cost and fine may be equally divided and charged among all the occupants of that specific room/area.
50. No Disciplinary Objections: I completely support the school's zero-tolerance policy towards vandalism. I understand that severe or repeated property damage may also lead to strict disciplinary actions alongside the financial penalty, and I will raise no administrative objections against the management's decision.
